

Recommendations for spencers.zone

Rating category	Score	What can I do in order to improve my score?
-----------------	-------	---

COLLECTION

Collects personal data	0	Although collecting personal data doesn't directly impact your Privacy Rating, it does introduce additional requirements needed to obtain a good rating.
Data used for functionality	1	N.a.
Data not stored	1	N.a.

SHARING

Sharing of user data	-1	Letting personal data leave the ownership of the service provider opens the door to privacy breaches. To get a better rating, only share anonymous data or no data at all.
No sale of user data	1	N.a.
Disclosure to foreign law enforcement	-1	If ever leaves the jurisdiction of the user, it may be subject to disclosure requests from foreign governments. To get a better rating, ensure only store and process user data within the jurisdiction of the user it pertains to.

CONTROL

Must opt-in for collection of personal data	1	N.a.
Personal data removed upon request	1	N.a.
All personal data can be corrected	1	N.a.

SECURITY

Follows security best practices	0	To guarantee that proper data protection policies are in place, the service provider must be able to provide a valid information security certification by a recognized auditor. To get a good rating, the organization should be able to demonstrate compliance with a relevant information security standard, such as ISO 27001 or NIST 800-53.
Anonymization	1	N.a.
Legally accountable	1	N.a.
